Clubhouse Updates:

Cara's Corner

We have a porter service!! What exactly does that mean? Well, the club has hired an outside service to keep the entire grounds, inside and out, neat and clean. The service will provide us with full-time coverage.

A minor facelift for the first floor turned into some major projects. Check out the beautiful new pro-shop, board room and men's locker room, especially the new steam room! Ok, ok we hear the rumblings and questions. This winter it's our turn! So, if we think our locker room could benefit from a steam room, or an additional toilet, let's vote and decide which of the two we would like. KEEP IN MIND, we can't have both due to space constraints. Currently, the women's room has new vanity countertops and touch up painting, with more improvements to follow.

In the near future the women's locker room will have its' tile and grout professionally cleaned.

On the Course:

Many exciting changes! Tees 2, 5, 8, 14, and 16 have been improved, sodded and ALMOST ready for play! The greens are healing well from their fall aeration and winter rest. Let's not forget it's only April!

The halfway bathrooms had leak in the walls last year. They will be fixed and ready for use as soon as possible. Temporarily, please use the porta-potty.
